Oxford County United Parish

Embracing Albany, North Lovell, Stoneham and the Waterfalls. Pastoral Staff: Revs. W. F. Bull, B. F. Wentworth, A. C. Townsend

Last Sunday, in all the churches having morning services and Sunday schools, special sermons were preached on the Place of the Teacher in the Work of the Church. Then followed a service of consecration of the officers and teachers of the schools.

Rev. B. F. Wentworth, Minister of Religious Education, is still doing religious work in the day schools of North Lovell and Albany, and the work is being appreciated in these communities. Plans are under way for similar work in other communities.

The showing of moving pictures is to be resumed this week. A picture will be shown at South Waterford on Wednesday evening, and at East Stoneham on Thursday evening, preceded by a supper, and on Friday evening at North Lovell, also preceded by a supper.

On Saturday evening of this week the new Wilkins Community House at Waterford will be dedicated at a social gathering. The memorial tablet to Miss Susan Hamlin Wilkins will be unveiled with remarks by Rev. A. C. Townsend.

Charles S. H. will speak of Miss Wilkins' early life and teaching in Waterford; Dr. Eliot Bishop of Brooklyn, N. Y., will speak of her mature life and work as an educator in Brooklyn. Their papers will be interspersed with music and followed with light refreshments, after which opportunity will be given to inspect the building, and for the young people to engage in a few social games.

On Thanksgiving Day at noon, the new bell in the tower of the new church will be rung for the first time as a call to all to pause for a moment of silent thanksgiving and prayer.

The finance committee met last Friday and adopted the following plan for handling the staff fund: 1. All money given for larger parish purposes may be received by members of the staff to be handed to the United Parish treasurer.

2. The executive committee and staff shall plan the items of the budget at the first of the parish year. Items may be added during the year only by vote of the executive committee. 3. An operating fund of \$100.00 shall be advanced to the staff for moving pictures, hospital and miscellaneous expenses; reports to be made to the executive committee. 4. The executive committee and staff will make some plan for 'O. C.' all other bills before sending to the parish treasurer for payment. 5. Financial reports shall be made at each council meeting.

Christmas Seals

Will be on Sale the Day After
Thanksgiving

In many sections of the state, Christmas seals are now being sold by children. These seals are NOT the Tuberculosis Seal, but are unstandardized seals which some commercial houses are offering for sale. Many people are purchasing them, thinking that by doing so they are assisting in the great fight against Tuberculosis. Therefore, an explanation at this time may not be amiss.

The legitimate Christmas Health Seal will not be placed on sale in any part of Maine until immediately after Thanksgiving. The American Red Cross and the National Tuberculosis Association have signed a very definite agreement or contract that the time from Armistice Day to Thanksgiving shall be devoted to the Red Cross Membership Drive, while the Christmas Health Seal and Health Bond sale is to be started the day after Thanksgiving. So, in accordance with that mutual agreement, no Health Seal will be on sale in this State before November 29th.

Several affiliated organizations and all nursing services supervised by the Maine Public Health Association are allowed to retain 50 per cent of their funds. The remainder of the money derived from the sale of seals and bonds in Maine is used for a state wide tuberculosis program, which includes clinics, with use of X-ray, follow-up work, preparing patients for sanatorium or home treatment, etc. With the exception of 5 per cent of the total seal sale which is sent to the National Tuberculosis Association, the remainder from the sale are used in Maine to stamp out tuberculosis.

The cut above is that of the 1929 Christmas health seal, which means much in the fight against that dread disease, Tuberculosis. For more than 20 years the Christmas seal with the double-barred red cross has been the means by which money has been raised to reduce the death rate from Tuberculosis. Dr. Kendall, State Commissioner of Health, recently issued this statement: "Since 1905 the mortality from tuberculosis in Maine has been reduced from over fifteen hundred annually to less than five hundred."

All thinking, progressive citizens of Maine are desirous of decreasing this death rate still further. The purchase of the legitimate, genuine, Christmas Health Seal duplicating the above cut, will be made possible immediately after Thanksgiving. Until then, please remember this explanation, and do not invest your money in the commercial seals which help but except the commercial house that issues them.

POST OFFICE DEPARTMENT BUCKS HUMAN NATURE

It is almost two full months before Santa Claus begins his long trek from the North Pole around the world. It isn't any too soon, either, for the Post Office Department, which is accustomed to furnish invaluable aid to the jolly old gentleman, to begin planning for the rush that starts well before December 25. Instructions are already being sent to postmasters throughout the country by Arch Coleman, First Assistant Postmaster General, to look to advance expansion and perfection of the Post Office Department at city postoffices to meet this annual emergency. Except for unusually severe snowstorms and similar conditions over which the Department has no control, there is no reason for irritating delays in handling mail during this period, it is stated.

Postal employees are to have the usual treat of spending Christmas day with their families, as there will be no deliveries or window service on December 25. We will have the usual campaign through the press, radio, trade journals, and business and civic organizations to arouse the procrastinators to a sense of duty in procuring their Christmas gifts. There will be, in fact, all the urgency and admonitions that we have heard for years and years past, and the cause will be as worthy as ever. Nevertheless, the realists are prophesying that just as many Christmas gifts will reach recipients after the appointed day. However, that won't be the fault of the postoffice department.

Man So Nervous Gets Sore When Spoken To

"It actually irritated me to have anyone talk to me, I was so nervous. Vinol ended this and I feel wonderful now."

Win. Faby.

Vinol is a compound of iron, phosphates, cod liver peptone, etc. The very FIRST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how QUICK the iron, phosphates, etc., give new life and pep. Vinol tastes delicious. L. V. Ash-ton, Druggist.
